

WEB APPLICATION ARCHITECTURES

JQuery – Basic Selection and DOM Manipulation

Objectives

In this exercise you use JQuery to read values from a page

Reference material

This exercise is based on material from the “Basic selection and DOM manipulation” chapter.

Overview

- In this exercise you will experiment with manipulation of DOM elements

Estimated duration

The estimated duration for this lab is 20 minutes.

Completed solution

There is a completed solution for this lab.

Step by step instructions

1. Open the starter project for this chapter
2. Use jQuery code to gather information from the form elements and then display them in a <div> after the <form> element.
3. Run and test your code
